ABOUT ME

I'm an expert at building and maintaining high-performing websites and applications as a web developer. I provide scalable, reliable solutions to challenging issues because I have a great deal of experience with both front-end and back-end programming. The integration of cutting-edge technologies is guaranteed by my methodical approach and careful attention to detail. I am committed to excellence and make a substantial contribution to the development and success of any team and business I work with.

WORK EXPERIENCE

01/08/2023 – CURRENT Dhaka, Bangladesh

SOFTWARE ENGINEER - NETCODEN INC.

I'm always adapting and learning new technology. In order to complete project specifications as a technical support engineer and developer. My responsibilities included:

- Developed and maintained CRM applications using modern web technologies.

- To ensure software quality and performance, develop in compliance with the client's requirements.

- Understanding and delivering client-focused solutions.

- Collaborate with team in cross-functional projects.

- Ensured clarity, conciseness, and timely delivery of all project components.

- Adapted quickly to new technologies and frameworks as project requirements evolved.

01/05/2022 – 01/06/2023 Dhaka, Bangladesh

FULL-STACK DEVELOPER - TECHSOUTION IT LTD.

I led the creation and upkeep of numerous customer projects while managing a varied tech stack as a full-stack developer at Tech Solution It Ltd. My duties included:

- Leading and managing development teams to ensure clarity, conciseness, and timely delivery of project components.

- Architecting and implementing scalable and efficient solutions using technologies like Vue.js, React.js, Laravel, and MySql.

- Collaborating with stakeholders to gather requirements, define project scope, and prioritize tasks.

- Understanding and delivering client-focused solutions.

- Analytical approach to troubleshooting and debugging.
